End Application:

Es sensor un set 2 unit 1 e1 isis ssgn fc102

Inclosure Type:

Encased

Circuit Construction Type:

Solid state

Product Name:

Amplifier, low-noise 2-8ghz

Special Features:

Frequency range 2-8ghz; gain 11.5db; gain over frequency at 25 degrees c min 9.5db maximum 12.5db; dc power 12v, 90ma max; noise figure 3.7db max; noise figure at 25 degrees c 3.1db max

Functional Description:

Amplifier, low-noise 2-8ghz

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
