Overall Length:

4.300 inches

Overall Height:

1.700 inches

Overall Width:

3.000 inches

Basic Shape Style:

Rectangular or square

Inclosure Type:

Encased

Circuit Construction Type:

Solid state

Special Features:

End item: distribution amplifier (model mda 4v eq)item has 1 composite video input, 1 passive composite video loop through, 1 s-video input, 1 passive s-video loop through, 1 female bnc input connector, 1 female bnc loop through, 1female 4-pin mini din input, 1 female 4 pin mini din loop through, 4 composite video outputs, 4bnc female connectors, power input requires 12vdc, 0.2amps

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
