Product Name:

Mda 2v eq, two output composite video mini distribution amplifier with gain and eq

Special Features:

One input, two output composite video mini distribution amplifier that provides 150 mhz video bandwidth with gain adjustments to allow for compensation of signal level loss that occurs over long cable runs, while eq adjustments compensate for high frequency loss; compatible with ntsc, pal, and secam video signals, and allows for cable runs of 600 to 1000 feet or more depending on the quality of the coax cable

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
