Operating Temperature Range:

+0.0/+70.0 degrees celsius

End Application:

F402 engine

Product Name:

Amplifier, direct current

Special Features:

Single ended output, storage temp range -40 to 125 degrees c, dc input power +/-12 to +/-15vdc@10ma max, mating connector accelerometer input ms3116f8-3p, mating connector signal output/dc power 8225 is ms3116f10-6s for the 8225-1, 2, 3 is c-h p/n 8719 (pin w/threaded coupling ring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
