Predator/mq1 and reaper/ mq9

Product Name:

Ic, dual op amp

Special Features:

The ad822 is a dual precision, low power fet input op amp that can operate from a single supply of 3 v to 36 v or dual supplies of + or -1.5 v to + or -18 v. It has true single-supply capability with an input voltage range extending below the negative rail, allowing the ad822 to accommodate input signals below ground in the single-supply mode. Output voltage swing extends to within 10 mv of each rail, providing the output dynamic range.

Shelf Life:

N/a

Unit Of Measure:

__

Demilitarization:

Yes - demil/mli

Fiig:

A32200
