Overall Length:

6.400 inches

Overall Height:

1.060 inches

Overall Width:

3.400 inches

End Application:

Clipeus system

Basic Shape Style:

Rectangular or square

Circuit Construction Type:

Solid state

Frequency Shift:

500.0 megahertz and 2.5 gigahertz

Product Name:

Gan broadband power amplifier

Special Features:

40-50 watts p3db typical, small signal gain 53 db typical, gallium nitride broadband pwr amplifier

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
