Inclosure Type:

Encased

Special Features:

Operating temp: -55 celsius to +100 celsius, dc voltage: +18 volts, continuous rf input 50 milliwatts at 1 minute max, high gain: 31 db typical, medium output power +15 dbm typical, frequency 5 to 500mhz

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
