Overall Length:

7.000 inches

Overall Height:

1.000 inches

Overall Width:

19.000 inches

Basic Shape Style:

Rectangular or square

Circuit Construction Type:

Solid state

Operating Ac Frequency In Hertz:

50.0 single voltage and 60.0 single voltage

External Ac Operating Voltage In Volts:

100.0 single voltage and 240.0 single voltage

Product Name:

Dvi distribution amplifier

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A32200
