Inclosure Material:

Steel

Overall Length:

19.000 inches

Overall Height:

3.500 inches

Overall Width:

12.250 inches

Average Life Rating:

3.0

Average Life Measurement:

Years

Basic Shape Style:

Rectangular or square

Identification Designator:

Cdi 1000

Inclosure Type:

Encased

Operating Control Method:

Manual

Installation Design:

Free-standing

Control Type:

Local

Circuit Construction Type:

Electromechanical

Product Name:

Cdi series of crown amplifiers

Special Features:

Refer to catalog page for additional details

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A32200
