Overall Length:

3.719 inches

End Application:

66254224314 spectrum analyzer

Features Provided:

Electrostatic sensitive

Special Features:

Major components: capacitor 7; coil 3; diode 4; integrated circuit 1; printed wiring board 1; resistor 16; transformer 1; transistor 3;
mounting configuration: plug-in mtg

Precious Material And Location:

Resistor silver

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
