Overall Length:

4.563 inches

Overall Height:

0.500 inches

Overall Width:

2.875 inches

End Application:

Antenna coupler groups, multiapplication

Special Features:

Mcapacitor, fixed 13, contact 34, pad, transistor 4, printed wiring board 1, resistor, fixed 19, resistor, variable 1, shield 1, test point 3, transistor 4; mounting configuration: plugs into printed circuit connector

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
