Overall Length:

3.350 inches

Overall Height:

0.938 inches

Overall Width:

1.750 inches

Product Name:

Fsc application data: radio, except navigation and home types, nonairborne

Special Features:

Capacitors, fixed 16; filter, crystal 1; inductor 1; pads, transistor 3; printed wiring board 1; resistors, fixed 20; resistor, variable 1; terminals 3; test points 2; transformer 1; transistors 4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
