Overall Length:

7.500 inches

Overall Height:

0.383 inches

Overall Width:

6.000 inches

Product Name:

Fsc application data: missile integration terminal equipment

Special Features:

Printed wiring board 1, capacitor 22, insulator 28, jack tip 20, resistor 116, semiconductor device 12, transistor 28

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
