Overall Length:

2.500 inches

Overall Height:

0.500 inches

Overall Width:

1.000 inches

Product Name:

Fsc application data: generator reference signal, radio navigation, nonairborne

Special Features:

Component wiring board 1; resistor 5; semiconductor device diode 1; terminal stud 12

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
