Overall Length:

5.750 inches

Overall Height:

0.500 inches

Overall Width:

3.125 inches

Product Name:

Fsc application data: generator referance signal, radio navigation nonairborne

Special Features:

Capacitors 14; inductor 1; integrated circuits 17; printed wiring board 1; resistors 25; semiconductor devices, diode 12; transistors 5

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
