**Overall Length:**

5.750 inches

**Overall Height:**

0.500 inches

**Overall Width:**

3.125 inches

**Product Name:**

Fsc application data: generator referance signal, radio navigation nonairborne

**Special Features:**

Capacitors 14; inductor 1; integrated circuits 17; printed wiring board 1; resistors 25; semiconductor devices, diode 12; transistors 5

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
