Overall Length:

5.750 inches

Overall Height:

0.500 inches

Overall Width:

3.125 inches

Product Name:

Fsc application data: generator reference signal, radio navigation nonairborne

Special Features:

Capacitors 11; integrated circuits 4; printed wiring board 1; resistors 24; semiconductor devices, diode 19; transistors 9

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
