Overall Length:

4.578 inches

Overall Height:

0.493 inches

Overall Width:

3.078 inches

Product Name:

Fsc application data: training sets, countermeasure signals

Special Features:

Capacitor, fixed 4; integrated circuit, module 1; printed wiring board 1; resistor, fixed 15; resistor, variable 6; semiconductor device, diode 10; transistor 4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
