Overall Length:

4.460 inches

Overall Height:

0.513 inches

Overall Width:

3.730 inches

Product Name:

Fsc application data: direction finder groups, countermeasure type

Special Features:

Capacitor 10; integrated circuit 1; pad, transistor 9; printed wiring board 1; resistor, fixed 35; resistor, variable 3; semiconductor device diode 8; transistor 9

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
