Overall Length:

6.750 inches

Overall Height:

0.693 inches

Overall Width:

4.370 inches

Product Name:

Fsc application data: direction finder groups countermeasure type

Special Features:

Capacitor 11; coil 4; connector, test point 1; pad, transistor 8; printed wiring board 1; resistor, fixed 33; resistor, variable 5; semiconductor device diode 4; transistor 10

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
