Overall Length:

4.460 inches

Overall Height:

0.543 inches

Overall Width:

3.730 inches

Product Name:

Fsc application data: direction finder groups countermeasure type

Special Features:

Ecapacitor 9; connector, test point 10; integrated circuit 1; pad, transistor 8; printed wiring board 1; resistor, fixed 26; resistor, variable; semiconductor device diode 6; transformer 1; transistor 8

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
