Overall Length:

4.460 inches

Overall Height:

0.685 inches

Overall Width:

3.730 inches

Product Name:

Fsc application data: direction finder groups, countermeasure type

Special Features:

Capacitor 19; pad, transistor 6; printed wiring board 1; resistor, fixed 35; resistor, variable 2; semiconductor device diode 8; transformer 2; transistor 6

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
