Overall Length:

3.680 inches

Overall Height:

0.562 inches

Overall Width:

1.600 inches

Product Name:

Fsc application data: training sets, countermeasure signals

Special Features:

Capacitor, fixed 5; printed wiring board 1; resistor, fixed 2; resistor, variable 1; semiconductor device diode 1; terminal 4; transistor 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
