Overall Length:

3.975 inches

Overall Height:

0.750 inches

Overall Width:

3.250 inches

Product Name:

Fsc application data: training sets, countermeasure signals

Special Features:

Amplifier 1; capacitor, fixed 4; connector, test point 2; handle 1; pin 2 printed wiring board 1; resistor, fixed 11; resistor, variable 3; semiconductor device diode 8; transistor 4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
