**Overall Length:**

4.578 inches

**Overall Height:**

0.764 inches

**Overall Width:**

3.078 inches

**Product Name:**

Fsc application data: training sets, countermeasure signals

**Special Features:**

Capacitor, fixed 3; connector, test point 1; printed wiring board 1; resistor, fixed 22; resistor, variable 1; semiconductor device diode 2; transistor 8

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
