Overall Length:

4.578 inches

Overall Height:

0.764 inches

Overall Width:

3.078 inches

Product Name:

Fsc application data: training sets, countermeasure signals

Special Features:

Capacitor, fixed 3; connector, test point 1; printed wiring board 1; resistor, fixed 22; resistor, variable 1; semiconductor device diode 2; transistor 8

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:
