Overall Length:

4.578 inches

Overall Height:

0.560 inches

Overall Width:

3.078 inches

Product Name:

Fsc application data: training sets, counter-measure signals

Special Features:

Capacitor, fixed 6; integrated circuit, module 3; printed wiring board 1; resistor, fixed 13; resistor, variable 2; semiconductor device diode 1; transistor 6

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
