Overall Length:

4.578 inches

Overall Height:

0.670 inches

Overall Width:

3.078 inches

Product Name:

Fsc application data: training sets, countermeasure signals

Special Features:

Capacitor, fixed 8; integrated circuit, module 2; printed wiring board 1; resistor, fixed 13; resistor, variable 2; semiconductor device diode 5; transistor 6

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
