Overall Length:

6.250 inches

Overall Height:

0.875 inches

Overall Width:

5.500 inches

End Application:

Part no. 91100007; countermeasures set

Product Name:

Frequency shift keying switching assembly

Special Features:

Major components: capacitor fixed 7; printed wiring board 1; resistor fixed 26; semiconductor device diode 3; terminal board 1; terminal feed through 26; terminal stud 48; transistor 7; mounting configuration: plug-in mtd; fsc application data: countermeasures set

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
