**Product Name:**

Fsc application data: electronic component assembly, power supply-storer, guided missile remote control system

**Special Features:**

Capacitor 9, connector 1, microcircuit 8, printed wiringboard 1, resistor 21, semiconductor device, diode 6

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
