Overall Length:

10.562 inches

Overall Height:

4.562 inches

Overall Width:

4.562 inches

End Application:

Electronic components assembly

Special Features:

Capacitor fixed 5; chassis 1; circuit card assembly 13; connector 3; converter 1; cover 1; pad, transistor 6; semiconductor device diode 1; switch rotary 1; terminal lug 2; tube electron 6; mounting configuration: rack mtd

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
