Overall Length:

2.000 inches

Overall Height:

0.562 inches

Overall Width:

1.750 inches

End Application:

Telephone systems, communication

Product Name:

Used as a frequency determination network circuit w/1785-hz center freq

Special Features:

Major components: capacitors 4; coil 2; printed wiring board 1; terminals 5; mounting configuration: three 0.120 in. Diameter mtg holes on 1.812 in. By 1.500 in. Triangular spaced centers; fsc application data: keyers electronic identification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
