Overall Length:

5.156 inches

Overall Height:

1.000 inches

Overall Width:

5.000 inches

Product Name:

Fsc application data: approach power controlset, automatic flight system

Special Features:

Capacitor 6, connector 1, inductor 2, printedwiring board 1, relay 2, resistor 4, semiconductor device5, transistor 4

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
