**Overall Length:**

5.156 inches

**Overall Height:**

1.000 inches

**Overall Width:**

5.000 inches

**Product Name:**

Fsc application data: approach power controlset, automatic flight system

**Special Features:**

Capacitor 6, connector 1, inductor 2, printedwiring board 1, relay 2, resistor 4, semiconductor device5, transistor 4

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
