Overall Length:

8.060 inches

Overall Height:

0.355 inches

Overall Width:

4.490 inches

Product Name:

Fsc application data: converter, analog, communication-identification-navigation system

Special Features:

Capacitor 4, register 9, printed wiring board 1, updown binary counter 7

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
