Overall Length:

2.688 inches

Overall Height:

0.312 inches

Overall Width:

1.688 inches

End Application:

Type no. An/arc-116

Product Name:

Usage design: used as an intermediate amplifier

Special Features:

Capacitor 24; coil 3; crystal 1; printed wiring board 1; resistor; semiconductor 2; terminal 2; transformer 4, transistor 3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
