Overall Length:

5.250 inches

Overall Height:

0.438 inches

Overall Width:

3.850 inches

End Application:

Peculiar items for fms only

Features Provided:

Electrostatic sensitive

Criticality Code Justification:

Cbbl

Product Name:

Fsc application data: radar mapping system

Special Features:

Capacitor 14, coil 4, diode 12, integrated circuit 1 printed wiring board 1, regulator 2, resistor 21

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
