Overall Length:

7.446 inches

Overall Height:

0.350 inches

Overall Width:

4.000 inches

End Application:

Automated test station

Product Name:

Fsc application data: test station, radio, guided missile remote control system

Special Features:

Capacitor 20, resistor 13, printed wiring board 1, filter 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
