**Product Name:**

Fsc application data: circuit card assembly, test station, guided missileremote control system

**Special Features:**

Capacitor 44, chassis 1, connector 6, diode 4, filter 3, relay 10, resistor 36, transistor 5

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
