Product Name:

Fsc application data: amplifier, automatic flight control system

Special Features:

Bridge 1, capacitor 20, connector 1, damper assembly 1, diode 7, insulator 25, operational amplifier 4, printed wiring board 1, resistor 104 transformer 1, transistor 20

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
