| Overall Height: |
|--|
| 0.372 inches |
| End Application: |
| Detector, ice turbine, aircraft |
| Special Features: |
| Kmajor components: capacitor 4; diode 7; famale connector 14; heatsink 1; printed wiring board 1; relay 2; resistor 12; transistor 12; |
| diameter: 3.500 inches; mounting configuration: printed circuit mounted |
| Shelf Life: |
| N/a |
| Unit Of Measure: |
| |
| Demilitarization: |
| Yes - demil/mli |
