Features Provided:
Electrostatic sensitive
Criticality Code Justification:
Cbbl
Product Name:
Fsc application data: modem, digital data
Special Features:
Capacitor 17, connector 1, inductor 3, integrated circuit 7, jack 3, printed wiring board 1, relay 1, resistor 50, semiconductor device diode
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
Yes - demil/mli
