Overall Length:

5.400 inches

Overall Height:

0.722 inches

Overall Width:

4.718 inches

Product Name:

Fsc application data: interconnection device, vertical display indicator group, test, aircraft

Special Features:

Capacitor 9, connector 2, control 4, heat sink 2, microcircuit 3, printed wiring board 1, regulator 1, resistor 21, transistor 5

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
