Overall Length:

5.400 inches

Overall Height:

0.632 inches

Overall Width:

4.656 inches

Product Name:

Fsc application data: interconnection device, line receiver, digital display indicator, test, aircraft

Special Features:

Capacitor 6, connector 2, microcircuit 10, printedwiring board 1, resistor 18, semiconductor device, diode 3

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
