**Product Name:**

Fsc application data: guided missile component

**Special Features:**

Printed wiring board 1, module data register 3, module output control1, module input control 1, module word counter 1, module rate counter 1, module input buffer amplifier 1

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
