Overall Length:

5.400 inches

Overall Height:

0.632 inches

Overall Width:

4.023 inches

Product Name:

Fsc application data: interconnection device, vertical display indicator group, test set, aircraft

Special Features:

Capacitor 7, connector 2, microcircuit 12, network 2, printed wiring board 1, relay 1, resistor 52, semiconductor device, diode 1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
