**Product Name:**

Fsc application data: test station, radio guided missile maintenance, repair, and specialized equip

**Special Features:**

Capacitor 8, diode 15, microcircuit 5, printed wiring board 1, relay 1, resistor 28, transistor 10

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A511k0
