Overall Length:

10.300 inches

Overall Height:

0.400 inches

Overall Width:

8.625 inches

Product Name:

Fsc application data: test set, guided missile system

Special Features:

Capacitor 14, diode 48, printed wiring board 1, integrated circuit 32, resistor 59, transistor 12

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
