Overall Length:

5.500 inches

Overall Height:

0.782 inches

Overall Width:

4.750 inches

Product Name:

Fsc application data: indicator-amplifier groups, light communication type

Special Features:

Capacitor 17, connector 1, diode 7, heatsink 2, insulator disk 6, jack tip 5, printed wiring board 1, resistor 33, semiconductor integrated circuit 1, transistor 7

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
