Overall Length:

6.830 inches

Overall Height:

0.487 inches

Overall Width:

1.775 inches

Product Name:

Fsc application data: converter, digital to analog, radio set, data link system, airborne

Special Features:

Capacitor 3, heatsink 1, insulator disk 8, contact electrical long 30, contact electrical short 24, housing connector 2, microcircuit 20, printed wiring board 1, clock driver 1, transmitter 8

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

A511k0
